Social

Its Canning Season!!

If you are canning this season, you might be busy harvesting and preparing your produce. It can be a rewarding and enjoyable activity, as it allows you to savor the taste of summer throughout the year.

Have questions or need your pressure canner lid tested? Give us a call.

July's Youth Quilt Camp showcased beautiful quilts. These young students are quickly becoming part of a vibrant and supportive community of fellow quilting enthusiasts. This camp was a collaborative environment where everyone learned from each other and celebrate their creative accomplishments together. Thank you Silver Threads for all your hard work.

July hosted a Double Irish Chain Quilt.

Here Sheryl Bowling, our instructor is working with experienced quilter Teresa Gibbs. These quilts are sure to be beautiful works of art for families to enjoy for years to come.

Ensure you have a pressure canner that is suitable for your needs and follows safety guidelines. It should have a pressure gauge or weighted system for maintaining pressure.

We do FREE pressure test.
